## Who We Are

I am writing to share an incredible opportunity to make a difference in the lives of our military veterans and support their journey towards healing and self-expression.

### Mission, Vision & Values

At Operation Revamp we believe art heals hidden wounds and our mission is to provide art and related opportunity to aid in healing mental health issues for Veterans, military family members and others suffering from trauma related mental injuries, in functional creative art studios; to raise awareness of psychological scarring and benefits of artistic practices in healing; and to provide resources for those suffering from the hidden wounds of trauma in partnership with other agencies and non-profits.

### Our History

Local artist and Blue Star Mother Wendy Hoffman founded operation Revamp in 2010. Having experienced the therapeutic benefits of art firsthand, Hoffman envisioned a space where veterans and family members could find healing and personal growth through creative expression. She recognized that art could serve as a means of communication for veterans dealing with physical and emotional wounds, as well as a way to connect with a supportive community.

Operation Revamp continued to expand its offerings and impact, and in 2013 the organization opened the Veterans Art Center. This change reflected the broader mission of the organization - not only to provide therapeutic art experiences but also to establish a hub where veterans could develop their artistic skills, show-case their creations, and engage with the local community.

### Who We Help

We provide services to veterans and their families at the Veterans Art Center, and believe that art can be a powerful tool for healing, self-expression, and personal growth. Our purpose is to provide a nurturing and inclusive space where veterans can explore their creativity, find solace, and connect with fellow veterans who understand their unique journey.

## Our Impact

*“I highly recommend this program to all Vets that need their services. I hope it never ends.”* ~ Anonymous survey response

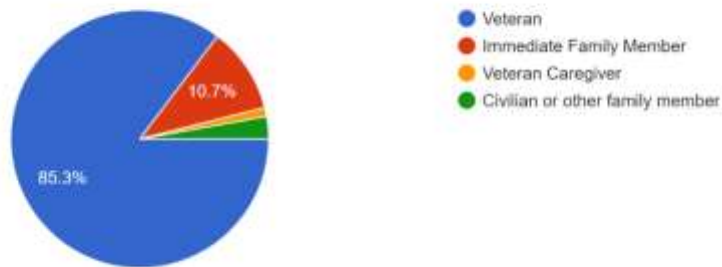

By providing our veterans with a creative outlet and a supportive community, we help them reclaim their identities and rebuild their lives. Art allows them to express emotions that are often difficult to put into words, and through their creations, they communicate their experiences, their struggles, and their triumphs.

Moreover, the Veterans Art Center plays a vital role in bridging the gap between veterans and the broader community. Through our exhibitions and events, we foster understanding, empathy, and appreciation for the unique challenges our veterans face.

The Veterans Art Center is more than just a place for art. It is a sanctuary where veterans can find healing, purpose, and a sense of belonging. It is a testament to the power of creativity in transforming lives. The healing and supportive environment created by the center have played a significant role in veterans' recovery and personal growth.
